ABOUT

ABOUT US

Meet the next generation of entrepreneurs

At FFA2020, the next generation of farm entrepreneurs were to be given the opportunity to present their contribution to the

accelerated change in farm business models. In their own unique ways, each project seeks to make a difference and shape a sustainable future for our farmland.

More information: www.dlmtrack.com

While in his first year at Glencair, Conallán HART launched a label to help ease and stabilize the transition period between conventional and organic farming. The five-year period is a great challenge in Europe

VARIA

Postponed

Due to the uncertainties surrounding Covid-19 the FCS Study Tour to Abergavenny, Wales is postponed to 2021.

Please join us then!

Details will follow by email.

An invitation to our Friends to come and join us for the
WALES 2020 STUDY TOUR
ABERGAVENTNY 11-13 SEPTEMBER 2020

Please come to Wales in September 2020 to discuss the future of the CAP, and to compare the post-Brexit proposals for the UK where

"payments will be for public benefit only."

But what does "public benefit" mean?

Can it be defined, legally and objectively?

Will it be subject to the changing whims of political parties?

Who will dominate the debate: farmers, land managers, NGOs or politicians?

Can this new philosophy ensure a sustainable future for farming, accepted by the public, and providing a livelihood for land managers, now and in the future?

Could the UK model become a template for the EU and the future CAP?

Will it fail?

This is a preliminary call for interest only.

*For further information, contact Sophy Smits van Dyen-Maltzoff: events@elo.org
or Jack Henbury: mail@pontypoolpark.com*
